

HUNTER, Sarah

My family and I are based in rural Doreen where we are establishing a multi enterprise 32 hectare organic farm and building an off grid home. I live in rural Bunjil, my children are at school and kinder in Hurstbridge, and I am committed to representing all parts of the Bunjil ward. My background is in landscape architecture and urban design. I have worked with council clients in Australia and the UK across a diverse range of open space projects. I understand the planning scheme and the need for council policy & projects to reflect community needs. I have a strong history of volunteer involvement and community leadership. I have been President of Arthurs Creek District Landcare Group since 2018, and a committee member prior to this. I was on the Nillumbik Environment Advisory Committee from 2013-2016. I seek positive working relationships and will work with the community, other councillors, state politicians, and other agencies for the benefit of our ward and the broader community. I support community & volunteers including CFA, Landcare, sporting groups, mens sheds and more. I was drawn into the council elections as a landholder directly affected by the Chapel Lane Landfills. As a result of my experience I am focused on the return of transparency & good governance to Nillumbik council, as well as the restoration of a strong and impartial body of professional staff. I will protect the green wedge as a long term asset for the next generations, and aim to strengthen policy and practice to protect water quality, biodiversity, and climate. I will retain and protect open space and seek improved recreation opportunities for Bunjil residents. To support me please number your vote card top to bottom: 5, 12, 13, 2, 10, 4, 3, 11, 1 (HUNTER, Sarah), 6, 7, 8, 9.
